- Delivered mobile and web tools in fast-paced, agile startup environments
- Completed 2 internships at Dutch tech firms (12+ months total)
- Ranked in top 25% of class, BSc in Software Development (Fontys University)

## Work Experience

**Graduation Internship in Software Development,** *Elephants in the Room* 🔗          09/2024 – 02/2025
- Worked on the developemnt of an AI-powered consultancy chatbot          Eindhoven, Netherlands
- Built and deployed the mobile version of the chatbot, increasing mobile user engagement by 90%.
- Built internal tools & dashboards using **JavaScript** (**React**) and **Python** (**Django**), improving team workflow efficiency by 30%
- Contributed to product development in a lean, startup-like environment.

**Intern Software Developer,** *Duodeka* 🔗          02/2023 – 07/2023
- Worked on *Mr Winston*, a restaurant management system (**React** + **Meteor**)          Tilburg, Netherlands
- Completed 25+ feature/bugfix tickets across frontend and backend
- Developed a standalone reservation widget embedded in 20+ restaurant websites
- Helped increase average online reservations by 18% after widget integration
- Successfully delivered all tasks and completed the internship with positive feedback

## Personal Projects

**Fast Stars Telegram Bot**  🔗
Developed, managed and continuously improved a Telegram bot that rewards users with stars convertible to real money via TON cryptocurrency. Features include automated task completions, minigames, giveaways, and a comprehensive admin panel for tracking and control. Built with **Python** (**Aiogram**), and **PostgreSQL** for database. 20k+ active montly users and growing.

**Enhancify**  🔗
Developed a **React** + **Python FastAPI** platform integrating multiple external APIs to deliver personalized music data. Users can log in with Spotify to explore top global artists, their personal top artists and songs, and find/filter concerts with real-time ticket prices and direct purchase links. Showcases skills in frontend, backend, API integration, and real-time data handling.

**Vozik Shop Telegram Bot**  🔗
I developed a Telegram Bot that enables users to purchase Telegram Stars and Premium subscriptions at discounted rates using cryptocurrencies, directly within the app. The bot automatically delivers Telegram gifts to active users, enhancing engagement and retention. It was built using **Python** (**Aiogram**) and **PostgreSQL** as the database platform and integrated with Fragment API for purchases, Heleket for multi-currency payment processing, and TON blockchain for transaction confirmation.

## Education

**HBO Bachelor HBO-ICT (Information & Communication Technology),**
*Fontys University of Applied Sciences*
- Ranked in top 25% of cohort, graduated with an average of 8/10
- Focus areas: Full-Stack Development, Game Design, Advanced Software Engineering
- Completed Erasmus minor at LIUC (Italy): Strategic Entrepreneurship, Economics, Python
- Successfully completed 2 internships (12 months total) at Dutch tech companies

**Junior Year Exchange Program,** *Noble Hight School*
Completed a cultural exchange year in Noble, Oklahoma, living with a host family and studying as a junior in a local high school. Graduated alongside seniors and achieved high scores on the ACT (American College Testing).

09/2018 – 06/2019
Noble, Oklahoma, USA

## Skills

JavaScript (React, Node.js, Express.js)

Python (Django, FastAPI, Aiogram)

C# (.NET Framework)

Java (Spring)

Docker

OOP

Telegram Bot Development

Web3 / Crypto APIs

REST APIs

Webflow

HTML/CSS + Tailwind

PosgreSQL, MongoDB, MySQL

## Interests

**Travelling**
Visited 35 different countries and counting

**Chess**
London System for white, Queen's Gambit for black

**Calisthenics**
Love the endless process of mastering new elements

**Skiing**
Have been skiing since I was 7, free ride enjoyer

**Crypto/Web 3.0** 🔗
Active part of the community, run my own telegram channel on this topic

**Football**
Both playing and watching, Shakhtar Donetsk and Dynamo Kyiv supporter

## Languages

**English**
**IELTS** — 7.5 (C1)

**Ukrainian**
Native Speaker

**Russian**
Native Speaker

**French**
Basic A2

**Italian**
Basic A2
